

National Earthquake Conference 2020
Sponsorship Opportunities
March 3 – 6, 2020 | San Diego, CA

www.EarthquakeConference.org

The 2020 *National Earthquake Conference* (NEC) Sponsorship Committee is seeking sponsors to help underwrite the Conference in March 2020. NEC will bring together academia, building code experts, design/build professionals, FEMA directorates, first responders, geologists, local emergency managers, insurance and reinsurance professionals, local and tribal governments, private-sector interests, public information officers, state government leaders, social science practitioners, U.S. State and Territorial Earthquake Managers, USGS leadership, and volunteers.

Attendees will share the latest advances in earthquake science, engineering, policy, and practice to create more resilient buildings and disaster-resilient communities in the face of seismic risk. The results of a new earthquake scenario and risk study for the San Diego-Tijuana region will be a key highlight of the conference. Developed by many experts over the last five years, the scenario will showcase the impacts and consequences of a future M6.9 earthquake on the Rose Canyon fault that runs through the San Diego harbor, resulting in significant disruption and loss to local communities. Participating experts will share findings from seismological and geologic simulations, engineering inventory and assessment studies, and local stakeholder focus groups.

The conference will be held March 3-6, 2020 at the Sheraton San Diego Hotel & Marina, and sponsorship will help provide a dynamic program of keynote presentations, discussion panels, and spotlight topics. Through sponsorship, companies and organizations will be recognized for their leadership in the earthquake resilience community and commitment to public safety and welfare.
