

# 2016 National Earthquake Conference

*What's New? What's Next? What's Your Role in Building a National Strategy?*

**May 4 - 6, 2016 · Long Beach, CA**

## Sponsorships Now Available

The 2016 National Earthquake Conference (NEC) Sponsorship Committee is actively seeking sponsors to help underwrite the upcoming Conference in May of 2016. NEC will bring together academia, building code experts, design/build professionals, FEMA directorates, first responders, geologists, local emergency managers, insurance and reinsurance professionals, local and tribal governments, private-sector interests, public information officers, state government leaders, social science practitioners, U.S. State and Territorial Earthquake Managers, USGS leadership, and volunteers. Attendees will share the latest advances in earthquake science, best practices for outreach and education, building science, code advancement, and policy initiatives that improve resiliency.

The Conference will be held May 4 - 6, 2016 at the Hilton Long Beach and sponsorship will help provide a dynamic program of keynote speakers and informative panels. Through sponsorship, companies and organizations will be recognized for their leadership in the earthquake resilience community and commitment to public safety and welfare.

*“The quadrennial National Earthquake Conference is a unique opportunity for experts to convene and discuss the very latest in scientific advances and policy initiatives to drive resiliency efforts forward.”*

Janiele Maffei, California Earthquake Authority Chief Mitigation Officer and NEC Sponsorship Chair
